

WEDDING PACKAGES 2018/2019

ABOUT NADIA BASSON PHOTOGRAPHY

I'm Nadia Basson and Photography is my passion. As a newlywed I have a great understanding of what a bride wants out of her dream wedding and as a photographer I paid close attention to the details on our wedding day, especially when it came to our photos. I handle all my shoots through that point of view, as if it was my big day and to provide exactly what I expected from my photographer. God gave me an absolute love for photography, to capture the love between people, and to be able to share and capture these special moments with clients makes me the happiest person on earth. Every photo tells a unique story in its own way and I capture each moment to the best of my ability so that the photo can speak for itself. I'm very excited and curious to meet my new clients and to see what my journey will be as a photographer...as said: "success is a journey, not a destination" and I'm looking forward to have you apart of my successful journey. We offer different packages that will give you enough options to choose from. We also offer customized packages where we make a unique package according to your needs. (Please email me for customized package).

I would love to meet you and discuss your options with Nadia Basson Photography over a nice cup of coffee.
